My chronicle : -

While exploring the world, I had the chance to learn from people of diverse cultures, different places, different faces - but at the end, I got to learn is that unfeigned relationships are built upon having better communications.

With this cognizance, ICPM was born where it's vision is to connect people with in the Healthcare Industry - Service Providers, Healthcare Professionals, Pharmaceutical Companies, & Local Government Authorities to have a long lasting trust worthy business relationships.

The insistence on success, advance planning and the cooperation in the team, and the support from our perennial Partners / Sponsors was the reason for the success of the conference during the pre-epidemic period , the epidemic period, and will remain the reason for the success of the conference.

it's never too late to turn things around and this is the new normal in our day to day living, The passion of successful people is to keep improving their success, so expanding the achievements is an inevitable thing, that is why we decided to go internationally with this conference.

We decide the establishment of the 8th ICPM in the year 2023 will be in Oman.

Purpose & Objectives of Oman ICPM

- **Oman's Vision and Direction** The system of providing comprehensive and equitable baseline health care is being expanded in the Sultanate's various governorates, with the participation of all actors from the government, private sector, and civil society, as is the expansion of medical specialties and the increase of specialized health colleges and institutes. With the goal of developing human cadres working in various disciplines of medicine and health care, while implementing global practices and trends in the field of reliability, whether at the level of medical services, health care institutions, and medical laboratories, or at the level of human cadres working in the health field.
- **New and required cultures** are also emerging to influence society's connection with health-care institutions, and social awareness of the notion (Health is Everyone's Responsibility) is growing, with technology tools playing a vital part. Distances and geographical ranges are also traversed in health care and prevention, communication and disseminating awareness, information, and health education; to deliver the finest health services with worldwide standards to citizens.

Purpose & Objectives of Oman ICPM

OMAN ICPM team strive to :

- **Improve the scientific sector by assisting in determining the course of studies.**
